

20 June 1961

MEMORANDUM FOR THE RECORD

SUBJECT: Overseas Assignments for Women with Dependents

In discussing the attached memorandum for Chairman, CS/CS Board, same subject, 12 June 1961 with [REDACTED] indicated he recognized the logic of the reasoning in the paper. He does not feel, however, that it is necessary for him to give formal approval at this time to the suggested practice. Rather, he would like for the Panel to consider each case on its individual merits, taking into consideration the location of the proposed assignment, the requirements which the individual would satisfy, her age, the number and ages of her dependents, the estimated impact upon the station or base, the relative costs, and the overall value to the CS/CS. If these factors have all been taken into account, he would probably support the Panel's disapproval of an assignment where the Panel felt the best interests of the CS would be served by such disapproval.
